

Name _____

Homework & Practice 8-1

Make Numbers 11 to 19

Another Look! Each number 11 through 19 has 1 ten and some ones.

Write the number of ones for each number.
Then write the number word.

12

1 ten and 2 ones

twelve

16

1 ten and 6 ones

sixteen

11

1 ten and 1 one

eleven

HOME ACTIVITY Write the numbers 11 through 19 on separate index cards. Show one card to your child. Ask him or her to write the number of tens and ones in the number on the other side of the card. Then ask him or her to write the name for the number. After you have worked through all the cards, you will have a set of flashcards that you and your child can save and use for additional practice.

Write the missing words or numbers.

1. _____

is 1 ten and 4 ones.

2. fifteen
