# Problem Solving: Use Objects

Use counters to solve.

**1.** Lisa puts 8 sweaters into two drawers.
What are two different ways she can do this?

**2.** Jack puts 7 plates on two tables.
What are two different ways he can do this?

## Number Sense

**3.** Lynn is planting 9 flowers
in two boxes.
She plants 6 in the first box.
Which shows how many she
plants in the second box?
