

Name _____

Problem Solving: Use Reasoning

1. All of these shapes are rectangles.
Circle the words that are true of all rectangles.

All rectangles:

- have 4 sides
- have 4 corners
- are white
- have the longest side at the bottom
- are big

2. All of these shapes are rectangular prisms.
Circle the words that are true of all rectangular prisms.

All rectangular prisms:

- are white
- are big
- have 8 vertices
- are gray
- have 6 flat surfaces

3. Which shows something that
is true of all cylinders?

All cylinders:

- Ⓐ are gray
- Ⓑ are small
- Ⓒ have 2 flat surfaces
- Ⓓ have a flat surface at the top
